

The Stratosphere Tower Hotel & Casino

The **Stratosphere Tower Hotel & Casino** in Las Vegas, Nevada USA needed a new solution for resurfacing its eight floor pool. With 2,444 rooms and an enormous guest turnover, the Stratosphere opted for [Bolidtop® Select Soft](#) when considering the safety and comfort of their guests. Graphics of the famous [Stratosphere Tower](#) (the tallest standing structure west of the Mississippi) were also incorporated into the design work of the pool's entrance. The area immediately surrounding the pool was strategically chosen for the initial application with the remaining area set to commence in 2005.

Boomerang Bay Water Park Resort

This main entrance fountain of **Boomerang Bay Water Park Resort** of [Paramount's Kings Island](#) located in Ohio, USA is a water activity area for children and required a safer surface with designable properties. Because of the intense foot traffic (peak time 8,000 people per day) the area needed to be durable, shock absorbing and slip resistant. [Bolidtop® Select Soft](#) was chosen to make this area safer and more comfortable. The park also surfaced another area in and around their newly constructed leisure pool with [Bolidtop® Select Soft](#).

The floorings have been installed by [Fusion Floors Inc.](#), a Bolidt Partner in the USA.
